

**REPORT ON THE THESIS ORIGINALITY CHECK
BASED ON THE JSA REPORT RESULTS**

(to be completed by the Supervisor, obligatory if PRP ratio > 60% after the second JSA check)

Type of thesis: bachelor's, engineering, master's¹

Programme of study:

Author's first and last name:

Student no.

Title of the thesis:

Supervisor:

PRP ratio (lead score) was: %

Goal of the thesis:

Research methods:

Having examined the JSA similarity report, I conclude that²:

The thesis has been prepared independently and under my supervision, and the similarity rate of % is due to the specific nature of the subject of the thesis, its goal and the adopted research methods:

Detailed reasoning of the Supervisor's decision:

The thesis presents a low degree of independence but meets the requirements for theses of the Wrocław University of Economics and Business to a sufficient degree.

Detailed justification of the decision:

¹ Delete as appropriate

² The Supervisor selects one of the options and justifies their decision.

Furthermore, I note that:

- The borrowings used were correctly referred to in the thesis, in a way allowing the identification of all the source fragments used.
- No intended text distortion has been detected in the thesis (no special characters or characters from another alphabet than the text of the thesis indicating unrecognised words and numerous changes in the text style, as well as excessive graphics) as an attempt to hide unauthorised borrowing.
